Abstract

Prof PhD PhD Momtchil Dobrev-Halachev developed 2008 "Theory of generating of crises", 2010 "Theory and practice of the Mafiotismus" and 2001 "Theory of the mafia". Based on these two theories this paper explains the establishment of the mafiotismus all over the world – principles, theory and practice, generating of refugee crisis and islamization process in Europa

Keywords - *Mafiotismus, Crise, mafia, corruption, theory, finance.*

INTRODUCTION

In the year 2001 Lord Prof. Momtchil Dobrev developed the "theory of the mafia" and "Theory of corruption". All the both theories he developed by analyzing of the mafia and the corruption all over the world. In Bulgaria, Germany, European Union, and other countries.

In the year 2008 Lord Prof. Momtchil Dobrev developed the "Theory of generating crises". The theory of generating crises has been developed by analyzing all the relationships between countries, and lysing the causes and consequences of crises. The theory examines all possible options for generating crises.

In the year 2010 Lord Prof. Momtchil Dobrev developed the "Theory of Mafiotismus" as a new state level based on private and personal interests of the prime-minister, ministers, government. This theory was developed based on the analysis of the reasons of the First World War 1914-1918, Second World War 1941-1945, French revolution 1789, Russian October revolution 1917, Cromuel Revolution, The Colr war, all the wars during the 17,

18, 19 centuries, the wars in 20 century, Irak War, etc.

Lord Prof. Momtchil Dobrev developed the "The Financial banking resource-based technological mafia-driven MATERIALISM" the real materialism as a critique of the Karl Marx' "Historical Materialism".

On the basis of the financial banking resource, technologically mafiotized materialism is the basis for the generation of refugee records.

A. Introducing the Problem

Explaining, analyzing the whole process of generating refugee crises will not only provide a forecast of refugee crises, but will also address the problem of a refugee crisis, the measures to be taken by one government, one state, one nation, one nation.

In this article, Lord Prof. Momchil Dobrev gives an explanation of the last refugee crisis as a process that is generated by the system of the financial banking resource technological mafiot materialism and its representatives for the sole purpose of profits from this process, the profits from the created case.

1.2. The importance of revealing the real and real causes of the Mafiotism, its development is of great importance for our entire civilization. This is important in order to be able to anticipate and track such processes and take real measures to prevent such crises.

1.3. Thesis of Lord Prof. Dr. Momchil Dobrev that representatives of the financial banking resource

technology mafiotized materialism were planned, realized, organized, conducted the last refugee crisis started as early as 2011. and continuing to date.

On the basis of the financial banking resource, technologically mafiotized materialism is the basis for the generation of refugee records.

the provocation of the yellow revolutions - Libya, Tunisia, Egypt and others.

causing a food crisis in food and causing hunger, lack of wheat

III. FUNDAMENTALS AND REASONS FOR THE REFUGEE CRISIS FROM AFRICA, IRAQ, AFGHANISTAN, PAKISTAN, SYRIA

A. Opening of new deposits around the areas of Targus and Latakia - two large port cities

Ie. it is a Lebanese basin - which is estimated to have a potential for 3.5 trillion cubic meters of natural gas and at least 1.7 billion barrels of oil. The second reason is to get the so-called Shiite Crescent - between Iran and Syria. The Iranians are starting a project through which the pipelines pass through Syria, and from there, they leave for the Mediterranean. The Iranians also signed a treaty with Pakistan. Thus pipelines directly reach China through Pakistani territory. This violates the US interests of Saudi Arabia, Qatar, Turkey and Kuwait. These countries are also the main sponsors of the rebels. Thereafter, the fabrication of occasions to launch a war against the Assad government - the torture of children in Darva - followed. And the spiral of rebellion has begun. The countries cited above aimed to destroy the infrastructure of the whole country. People who become refugees. These are people from the poorer neighborhoods - characterized by high birth rate low literacy, easily controllable and managed, Islamists - people sympathetic to Muslim brothers. The so-called free army is a group of dozens of armed groups - Al-Nusra, Al-Faruk Ahar, Al-Sham. Two-thirds of them are not Syrians, they are closer to the Taliban - Islamists from Libya, Afghanistan Pakistan, Chechnya Saudi Arabia. United States because Iran is the largest player in the gas field, along with Qatar and Russia. Israel is starting to exploit the Tamar field - and this is part of the Levantine basin. The other countries that are connected to this basin are Cyprus and Greece, but because of their financial crises, and they are inconceivable.

B. Syria and the Assad family

These are the Aulai's necks, ie. Shiites. Aliases are only 12% of the population of Syria, but they own all resources, telecommunications. They are worldly, celebrate Christmas with Christians, women do not get bored. Suns are over 70%, Christians about 12%, 2.5 million .. The US and Saudi Arabia aimed to win the Sunnis for their cause. Most Sunnis, however, are mundane. That is why Islamists bring in from all over the world. The Christian cities of Seydnaya, Marmara, Maharade - the Christian neighborhood of Damascus.

Situation in Syria before the war:

Syria did not have a dollar debt before the war, education and health care were free, mass production, factories, whole production cycles that were closed. Prior to the war, Syria is developing at a rapid pace. A lot of work, lots of opportunities. Students who study abroad are returning to continue their work in Syria. Small and medium business, craftsmanship, family business thrive.

Bad things - the writing of donations, the capture and the disappearance of political prisoners punished for ridiculous acts, Syria is a secular and democratic country from Kuwait, Saudi Arabia, Qatar, Bahrain.

In Saudi Arabia and Qatar Christian symbols are forbidden, women have no rights Syria is among the most tolerant and secular state in the Middle East of all Muslim countries. Christians in Syria have full rights, rest on Saturday and Sunday, have their own courts. In Saudi Arabia, Christian sermons are punished with death. The goal is to join the most secular state in the region.

On the side of the rebels are included the Islamists from all over the world - Saudi Arabia, Pakistan, Afghanistan, Tunisia, Chechnya, Libya, Iraq, Qatar, Kuwait, Sudan. The aim is to kill the Syrian population - especially women and children. The aim is to eradicate Christians in Syria. There are no Christians in Iraq. Syria is a relative of Christianity, The goal is to turn Syria into a radical Islamic state.

EDI and Saudi Arabia do not differ in terms of ideology. Both sides share the same doctrine of Wahhabism and Salafism. Demolition of churches, jihad, Shiite murder, religious police, stoning, public executions.

According to Amnesty International, Saudi Arabia has twice beaten more than IDIL.

THE GOAL is for the US to take over the oil and move to Iran,

Saudi Arabia, Qatar, Kuwait Bahrain fund IDI, UAE, blame Europe for racism.

Syria took refugees in 1839, hundreds of thousands of Greeks, Armenians and Syrians from the Ottoman Empire's genocide in 1915, Palestinian refugees in 1048-1967, Kuwaiti refugees in 1990, Lebanese refugees in 1996 and 2006, over 2 million Iraqi refugees half a million Iraqi Christians from the lynch.

C. Arab Spring and Yellow Revolutions

This is the third wave that begins in 2011.

The outbreak of the Arab Spring and the overthrow of dictatorial regimes in the neighboring Middle East region is a process generated for refugee flows. Factors for provoking the Arab Spring.

The culprits are actually the actions of the practice tens of years of the International Monetary Fund, the World Bank, the shortage of wheat to feed the population.

1. Shortage of wheat in the region of North Africa to the Sahara.

The Arab Spring explodes across North Africa. First comes Ben Ali in Tunisia, Mubarak in Egypt, Gaddafi in Libya, then Selesh in Yemen. Following the civil war in Syria is the removal of Assad.

Immediately the political vacuum is filled with "the Islamic state. The goal is to create a continental

caliphate. They immediately lower the price of the grain.

As the first reason for the Arab Spring in Africa, the Arab Spring was the price of the grain. This is through and through the world's largest food trading companies ADM, Bunge, Cargill Louis Dreyfus.

In fact, these four companies control 90 percent of wheat trade in the world. Actually they decide what the price that humanity has to pay to eat. Food insecurity in this region is greatest The shortage of wheat in this region is greatest. And wheat is needed to feed the population of the whole of Africa. This concerns the region to the Sahara. 55 percent of the food consumed is imported, and over 37 percent of these 55 percent is the share of wheat.

These four companies really aim only at profits. Even in the 2005 situation. when prices are uncertain, yields are uncertain, these four companies are betting against themselves. Ultimately, they only benefit from it.

It is no accident that bread in Egypt means "life".

Although the region is fertile, it is among the poorest in the world. As a result, 40 percent of Egyptians and Yemen live in poverty. It is the World Bank and the International Monetary Fund that culminate in the tragedy that ultimately has to be used against these countries to create only conflicts. They aim to create an area that could blow the situation across this region, and only a few days. Both the World Bank and the International Monetary Fund radically reduce subsidies for investment in wheat production, instead promoting the export of fruit to the West. On this basis, the region is becoming more and more dependent on the four giants' actions and intentions and goals for profits.

It is easiest to blaze riots. As a pretext whose effect is the rise in wheat prices before the Arab Spring broke out, Barack Obama's attack against the four wheat-trading companies.

He does not succeed. In fact, the whole of North Africa becomes dependent on the financial-banking resource-techno-mafia-centered materialism, whose participants are the banks of the Jews and the trading companies trading in wheat.

In fact, this is used by an Islamic state to lower prices and gain the confidence of the nation on its side who "takes care of their survival and life."

A real Islamic state became a liberator for the nations of North Africa.

The result - following the collapse of statehood in all countries of northern Africa, followed by flows of refugee waves.

The culprit is short on the stock exchange. These are sums of quadrillion US dollars from which our FBRTM MATERIALISM - especially the banks of the Jews.

62% of those arriving at the coasts of Europe by ships are from Syria, Eritrea and Afghanistan. These countries are ripped with wars, oppressive dictatorships, and religious extremism.

In Syria - all three together.

D. Europe - the ultimate destination of refugee flows to create chaos in Europe and Islamization.

Europe has been a top destination for immigrants from Africa and the Middle East for years. In 2015, the flow of refugees skyrocketed as a result of the civil war in Syria and the position of Chancellor Angela Merkel that immigrants are welcome in Germany. Most often, refugees enter Europe through Greece and cross the Balkans in search of a better life in Western and Northern Europe.

THE REFUGEE WAVE AS A TERRORISM IMPORT IN EUROPE.

Islamic formations

More than 180 Islamic formations currently operate in Europe. These are mostly non-governmental organizations. On the one hand, they are pushing for the creation of a global "caliphate" and, on the other hand, are actively fighting the enemies of Europe's Islamism.

All these non-governmental organizations receive funding from European taxpayers.

In addition, they are sponsored by a number of near-eastern countries.

From 2010 these Islamic organizations have received over \$ 400 million in sponsorship and funding of European programs.

These organizations, for the most part, are related to Egypt's Muslim Brotherhood, founded 90 years ago. Both al Qaeda and the Islamic State set out to create a "world caliphate."

At this stage, "Muslim Brothers" have the largest branched network of legal organizations on the continent, mostly non-governmental organizations.

On the other hand, they maintain uninterrupted contact with the Salafites and jihadists.

According to Islamis World Map participants, most Islamic organizations are operating in the UK. My 5 oversees over 23,000 Islamic citizens who are UK citizens. There are 84 organizations in the UK.

The three movements created and controlled by these organizations are the Muslim Brotherhood, the Palestinian Islamist Movement Hamas and the Religious Affairs Committee of Turkey 8, the so-called DIANET.

Their so-called "business model" is "the fight against Islamophobia" - a strategy that actually hides the goals of these organizations. Under this pretext that they are fighting against Islamic disease, they also receive real funding from the European Commission and the governments of Sweden, Germany, Austria, Switzerland, the United Kingdom and Norway. These countries have allocated over \$ 165 million in total. Another 159 million dollars came from Qatar and Saudi Arabia, respectively,

from their governments and charitable funds, private individuals or royal families. .

Only in 2014 Danish Islamic organization Islamisk Trossamfund has received \$ 20 million from the Qatari government, and the League of Muslims in Belgium has received from Qatar \$ 1.2 million.

Indeed, these non-governmental organizations reduce their struggle not to the propaganda of "peaceful Islam", but to a campaign to fight against those who resist the creeping Islamization of European countries and society.

This process is actually stimulated and supported by the majority of European liberals and left-wing politicians. This is a purposeful action.

THE SOROS STRATEGY for activating the refugee wave.

Actually, with his actions and results from his work, Soros proves that he is working on this program. Actually, one of the most active sponsors of the struggle against Islamophobia is George Soros, whose Open Society Foundation in recent organizations and funded various Islamic organizations with millions of dollars. Here, recipient of these grants is not "Muslim Brothers", but also for a continuous flow of these grant schemes as the main recipient is "European Network Against Racism.

Another organization that is funded by George Soros is the Inssan Islamic Propagation Association in Germany. And this organization has connections with the "Muslim Brotherhood".

Typically, 60% of these finances come from the Gulf countries, the federation of Islamic organizations in Europe.

Financing includes building mosques - an example of 3 million euros for building a mosque in the town of Malmö in Finland The Bahrain royal family has prepared an investment of 151 million euros to build a huge mosque in Helsinki.

In Bulgarians during the last 10 years under the rule of Prime Minister Boyko Borisov were built over thousands of mosques and in Orthodox Bulgaria were built only ... churches.

The actual salaries of the imams in these mosques are paid by Turkish Dianet either from Saudi Arabia and from the Gulf countries.

The aim of these societies is to build a parallel Muslim society in the respective country to be a bridge to the whole refugee wave

The real unofficial ideologist of the Muslim Brotherhood organization, Jusuf Al-Cardadai, says frankly: "I usually tell my brothers in other countries to try to create your own little community inside the big one, otherwise you will dissolve in it as salt in water."

In fact, through these organizations, it is set in the countries of Europe for a large, silent invasion of

Christianity - and not just against it, but against the rights and freedoms, morals, ethics, legal and moral norms advertised by leaders Merkel and Macron.

The real "European liberal - and neoliberal democracy" becomes a real instrument for the formation of the "caliphate".

The Islamists actually appeal to the principle of equality and constantly complain of violation of their religious rights and the freedom of opinion.

Indeed, this concept in addition to dissociating the European Muslim communities and actually leads to their radicalization.

Muslim communities are closed communities that can break the open societies of European countries.

This concept actually imposes the laws of the broad-mindedness that Islamists impose on European Muslims,

Indeed, Islam is actually slowly becoming part of the lives of Europeans,

This also happens through food and eating habits.

It's about "bhopal" - food.

Only according to Reuters only for 2015. this industry in Europe costs for such food in the world have reached \$ 1.1 trillion, with a profit of \$ 41 billion.

These foods bring income to the Muslim Brotherhood. In France, only 60% of the production of these foods is controlled by "Muslim Brothers" because only these organizations certify this produce and it can be considered a "halal". This is about the Union of Islamic Organizations in France, where more than 200 organizations are members.

THE SOROS SCHEME FOR ENTRY IN COUNTRIES AND THE ESTABLISHMENT OF PARALLEL STRUCTURES

The Open Society as a concept, as a system in Soros' work. For Soros, the open society is what opposes isolationism and unitary thinking, that is, of "totalitarianism".

Soros adopts the ideology of Carl Popper, who, in 1945, publishes his books *The Open Society and its enemies*.

Soros created the foundation of the Open Society Foundation in the early 1980s in the former socialist countries. This begins in his native Hungary. It attracts dissident people, the opening of Hungary to the West accelerates the fall of the Berlin Wall.

This is also a process in the African countries of North Africa.

Soros's goal is to control politically and economically both the former "communist" Eastern Europe and Africa in order to gain from it.

The goal is a bloodless change of the political system to serve Soros. This is actually the Marshall Plan of Soros, as a representative of FBTTM Materialism. It finances political movements, funding of non-governmental organizations.

Create parallel structures in the countries where it operates. Financing of political projects - parties that

come to power in the respective countries France, Bulgaria, and dozens of others.

THE EUROPEAN UNION AND THE EUROPEAN COMMISSION - a project of people such as SOROS to islamize the Europa and bring into the chaos.

It is no coincidence that it wants to support AFRICA from the European Union and the European Commission in the amount of 32 billion euros per year.

Through his speculation, he wants to gain power over nations, nations, governments, only to win and gain profits from that. Under the idea of liberal strategies and supposedly pursuing the idea of an "open society".

He believes that the time of the bloody massive revolutions is over, and there is another, more general, five, to change the political system and its rule and management.

Under the proposition that the place of society with state control of the economy and the media must come liberal society - free. This will, however, be with people who will be faithful to their leader - SOROS in all spheres - political, economic, banking, financial institutions, ministries, governments. These heads will be created at the Open Society Foundations of SOROS in so-called non-governmental organizations. They will work on creating parallel structures - the media, journalism, book publishing, the judiciary, education, sociology, finance, banks, financial institutions, health, and in all spheres of society.

Soros openly calls on NATO to bomb Serbia.

Actually in the last 2018 years. Soros calls on the European Commission to pay billions for the European Refugee Wave and to finance billions of Africans at 32-35 billion euros a year.

These and other money will be stolen by the underwriting companies and agents.

One of Soros's and company's goals is opening up all the ways and opportunities for huge profits of multinational companies and money laundering.

The slogans are: "The market is God," "Freedom is more important than equality."

Soros himself states: "As a market participant, I do not have to be concerned about the consequences of my actions."

At the same time, Soros declares himself a savior of civil society, an opponent of market fundamentalism and a champion of open societies and citizens' freedoms.

It is not accidental the statement of the Russian oligarch in exile in England Boris Berezovsky: "I almost fainted when I realized two years ago that George Soros was a CIA agent."

Financing Soros for Islamic organizations

Soros's OPEN SOCIETY has funded millions of dollars in Islamic organizations over the past years. This is not about Soros's separate shares, but about the continued sponsorship of Muslim Brotherhood, the main recipient of these grants is the so-called "European Network Against Racism" ENAR FEMYSO. The Forum of European Muslim Youth and Student Organizations protects the priesthood of young Muslims and.

Another organization, which is funded by the Soros Foundation, is the INSSAN Association for Promoting Islam in Germany. And this organization maintains connections with "Muslim Brotherhood".

About 65% of the funding comes from the Gulf countries

Other such organizations are: the Federation of Islamic Organizations in Europe and - a headquarters in Berlin.

Investments in "European" Islam are indeed enormous.

The goal is to create a PARALLEL SOCIETY, which is also the goal of the SAROS for the purpose of - chaos in Europe and profits from this chaos. FEMYSO.

In France, the services monitor about 18,000 supporters of radical Islam. In Germany, there are about 12,000 Salafists who have Wahhabism among 35 to 45,000 people who profess other versions of radical Islam.

V. ARE SAFE REFUGEES BEEN REALLY?

According to data from the European border agency Frontex in 2015, more than 1 million immigrants have entered Europe.

Some 885,000 of them arrive in Europe via the eastern Mediterranean route - by boat across Greece, as well as entry into Bulgaria and Greece by land from Turkey.

In 2016 - 382,000 immigrants from the Middle East, Africa and Asia using the eastern and central Mediterranean routes.

Greece and Italy accommodate 180,000 people each. What brings them here? Most of the refugees flee from places with military conflicts. Permanent harassment and repression by terrorist groups such as the Islamic State or the Taliban in Afghanistan.

Immigrants see Europe as a safe place to live.

Not all can be defined as economic immigrants.

Some do not flee from war, but from poverty, unemployment, and others.

Everything and the benefits of the SOCIAL COUNTRY.

Immigrants are hoping to subsidize the state's housing, aids. The human trafficking market is between 3 and 6 billion euros. Cash and bank transfers. Immigrant relatives pay to bank transfer traffickers when they perform their contracts. Prices of services: In 2015. boat trips from Turkey to Greece cost around 1000 euros per person. Currently,

the price is about 2000 euros. The route from Libya to Italy costs between 1000 euros and 3000 euros per person, and the prices from other North African countries to Italy are similar. New transfer schemes - worth 2016 euros - over 10,000 euros. To board an airplane from Istanbul to any European city.

The price includes fake passports and certainly bribery at the airport's customs officers. A trip from Turkey to Italy costs about 5,000 euros. An immigrant to cross the border with Serbia from Bulgaria is on average between 1000 and 2000 euros. After Serbia, they easily reach Hungary. From Hungary to Austria it costs almost 500 euros. From Austria to Germany it averages between 400 - 500 euros. For Afghans, the trip from Afghanistan to Germany costs between 8,000 and 10,000 euros.

VI. HOW MUCH DO PAYERS PAY???

According to the Organization for Economic Cooperation and Development (OECD), in the first year alone, the care for a refugee is about 10,000 euros.

The bill is higher if the refugee stays in Germany - it costs between 12,000 and 20,000 euros per year. While the latest information is that Germany has given 21 billion euros to 380,000 refugees,

According to the OECD, Germany has sheltered at least 900,000 refugees for 2015. and has spent 16 billion euros or 0.5 %% of the country's GDP.

In 2016. Germany has spent 21.7 billion on the crisis. The amount is much larger.

In 2017, the forecasts are 21 billion euros, and 20 billion euros each year by 2020.

This is a business pen. Local government in Germany spends extra resources which are not the state budget and which are not reimbursed by the central government and the state budget.

States spend money on: registration, refugee status procedures, refugee camps, temporary housing, urgent first aid, basic language training, civil integration training, immigrant deportation.

Local government finances - initial and formal education of refugees, social assistance programs, guaranteeing minimum income, accommodation, language training.

Germany guarantees housing, food and training for work. In Sweden, the laws are similar.

Sweden is the second refugee in 2015. and first on per capita refugees.

According to the OECD for 2015, Sweden has sheltered 163,000 refugees or 1,6% of the population and has spent 6 billion euros or 1,35% of GDP. For a year in Sweden, the cost is about 6 billion euros.

Costs of housing provision and immigration training.

Hidden costs" - increased crime, immigration crime.

VII. THE ECONOMIC CRISIS OF THE REFUGEE CRISIS

Where does the reason come from? The countries or financial environments that lead refugees to wealthy countries to create problems.

The aim of these societies is to build a parallel Muslim society in the respective country to be a bridge to the whole refugee wave

The real unofficial ideologist of the Muslim Brotherhood organization, Jusuf Al-Cardadai, says frankly: "I usually tell my brothers in other countries to try to create your own little community inside the marsh, or else you will dissolve in it like salt in water."

Actually, through these organizations, it is set in the countries of Europe for a massive silent invasion of Christianity - and not just against it, but against the rights and freedoms, morals, ethics, legal and moral norms advertised by leaders Merkel and Macron.

The real "European liberal - and neoliberal democracy" becomes a real instrument for the formation of the "caliphate".

The Islamists actually appeal to the principle of equality and constantly complain of violation of their religious rights and the freedom of opinion.

Indeed, this concept in addition to dissociating the European Muslim communities and actually leads to their radicalization.

Muslim communities are closed communities that can break the open societies of European countries.

These concepts actually force the laws of the scar that Islamists impose on European Muslims,

Indeed, Islam is actually slowly becoming part of the lives of Europeans,

This also happens with food and eating habits.

It's about "bhopal" - food.

Only according to Reuters only for 2015. this industry in Europe costs for such food in the world have reached \$ 1.1 trillion, with a profit of \$ 41 billion.

These foods bring income to the Muslim Brotherhood. In France, only 60% of the production of these foods is controlled by the Muslim Brotherhood, since only these organizations certify this crop and it can be considered a "halal". This is the case for the Union of Islamic Organizations in France, where more than 200 members are members.

VIII. THE REFUGEE WAVE AS A TERRORISM IMPORT IN EUROPE

PARTICIPATION OF THE USA AND EUROPEAN COUNTRIES IN IMPORTING TERRORISM AND ISLAMIZATION OF EUROPE.

2014 The Economic and Political Intelligence Company Dim Dobrev Consulting House is investigating the reasons for the import of refugees. Advertising in newspapers. The real refugee camp in

Turkey on the Syrian border has made 15,000 rises in sales for food and other products.

It's really business.

Participation of US and European countries in the import of terrorism.

2015. we are investigating a person who has a close relationship with prosecutors from the Supreme Prosecutor's Office of Cassation who sells US passports and US driving licenses - original. For this purpose, potential buyers display their passports - original without this person having been a single second on US territory.

This offering of passports is priced from 5,000 to 15,000 euros.

The person has the protections of the Chief Prosecutor Sotir Tsatsarov, the Prime Minister Boyko Borisov of all the services.

The US State Agency for National Security, the General Directorate for Combating Organized Crime, the US ambassadors, are being briefed personally by US presidents Barack Obama and Donald Trump.

There was no reaction.

The SANS and the GOCB, which are directly subordinate to Prime Minister Boyko Borisov, state that this is not their job.

In fact, the investigation has shown the sale of between 5000 and 13,000 passports.

Separately, the state agency for foreigners issues Bulgarian passports to over 45,000 citizens, some of whom are declared heirs of Bulgarians, but come from Africa and African countries, from Iraq, Syria, and other countries.

The European Commission, German Chancellor Merkel, the President of France, Macron, are informed - without any reaction or action.

Apparently these institutions are involved in the whole process of importing terrorism and Islamization into Europe. Profits are enormous. As evidence that Germany has spent 21 billion euros in one year for 380,000 refugees. These are money that is many times bigger for German citizens.

IX. THE ISLAMIZATION OF EUROPE

The plan is simple. Imams are funded The two main organizations for the Islamization of Europe are Saudi Arabia and Dianet of Turkey.

Dianeta has a budget of about \$ 2.5 billion per year, 150,000 employees, more than 300,000 alumni-imitative schools,

Over 1 million Turkish youths learning about imam-hatip.

These countries not only finance the imams' salaries in countries in Europe - outside Turkey and Saudi Arabia, but they finance all activities, the construction of mosques.

The process of Islamization began, for example, in Bulgaria since 1999. under the rule of Ivan Kostov close to the United States

More than 30 non-governmental Muslim organizations are formed, more than 1,500 minarets of mosques are built, as Bulgaria is third in the construction of new mosques after Germany and France and before England.

Is Islamization in Bulgaria underway - Islamists are Gypsies - Bulgarians are 97% without education, do not have jobs, they give birth to children aged 13-14, they give birth to dozens of children, some of them sell.

This is the easiest way to Islamize.

For 5 years, non-governmental organizations for Roma receive from the European Commission 890 million leva funding for the integration of Gypsies. The result is null. They neither educate nor cultivate. But the Gypsies are Islamic.

Another item in the process of import terrorism and Islamization is the process of issuing more than 25 000 passports to "Bulgarian citizens", while some of them - persons from Africa - are issued Bulgarian passports as heirs of Bulgarians. There have been cases of Bulgarian passports issued by terrorists and persons who have proven to be jihadists.

These non-governmental organizations are also funded with the help of Soros.

For 15 years more than 1500 mosques have been built in Bulgaria

For the period 1989 to 2007, new mosques have been built 323.

In the United Kingdom 500 churches have been closed in recent years, and more than 400 mosques have been built.

I.e. this is the SOROS plan for Islamization of Europe in which all prominent leaders of the big countries are involved.

Of this, it is earned - out of the total funding, 80 to 90 percent of this funding goes to our people for the mafia.

Neither Merkel, nor Macron, nor Juncker and prominent European leaders have anything to do with this process of Islamization. If they do not oppose, they are involved in this whole process.

Imports of terrorism and Islamization is a good business for profiting large money - financing for integration, financing of security systems - equipment, appliances, complete equipment - for billions of euros profits, security systems, in whole cities, security systems cameras and other. Dianet controls more than 10000 mosques in Germany.

X. CONCLUSION

Everything above proves how representatives of Europe-US Financial and Banking Resource Technologically Mafiaized Materialism organize the whole process of evoking refugee crises, refugee waves, the process of civilization replacement, the import of terrorism, and Islamization of Europe as the sole purpose of this whole process is huge profits. Everything rests on the creation by Lord Prof. Momchil Dobrev Theory of Mafia

XI. FORMULA OF THE MAFIOTISMUS

The most simple model of mafiotismus that describes the factors that affect the amount, type, and etc of the mafia is the following:

MAFIOTISMUS = PERSONAL Power / on the top of state institutions / state and etc./ + Influence + Connections / to personal, private companies + Interests / personal, corporate / + ORDER / ORDERS + Personal control of all state neaveus + of all states niveaus Mafia structure / inside or outside / + Monopoly Rigths + laws / rules / practices / procedures + possibility of taking an alternative decision - obligation - responsibilities - morality / ethics other resources (including European funds and funds).

This MAFIOTISMUS takes on the basis of the "Financially-Based Material-Based Materialism-Based Materialism" developed by Lod Prof. Prof. Prof. Momtchil Dobrev - Halachev.

The whole process is assisted and accelerated by the environment for the emergence of all crises - neoliberalism and globalization.
